

Financial Tear Sheet

Corporate Profile

Berry Global Group, Inc. is a leading global manufacturer and marketer of value-added plastic consumer packaging and engineered materials. With a long-standing track record of delivering high-quality customized solutions to our customers, our products are designed utilizing proprietary research and unique development and manufacturing technologies. These technologies foster the innovation of our products, which include open top and closed top packaging, polyethylene-based plastic films, industrial tapes, medical specialties, flexible packaging, heat-shrinkable coatings, specialty laminates, and FIBCs (bulk bags). To augment our product offering, we have been one of the most active acquirers of plastic packaging businesses globally, having acquired more than 30 businesses since 1988.

Our successes have been made possible through the dedication of our employees, who hold themselves accountable to exceed the expectations of our customers and to create value for our stakeholders. Berry Plastics' culture generates a solid commitment to teamwork and shared success and has allowed us to effectively integrate strategic acquisitions, create and maintain strong customer relationships, withstand changing economic conditions, and grow at rates in excess of our industry. With headquarters in Evansville, Indiana, we serve over 13,000 customers, ranging from large multinational corporations to small local businesses. Berry Global's common stock is traded on the New York Stock Exchange under the ticker symbol BERY.
