

**INNOVATION FOR THE WORLD**  
SOLUTIONS FOR YOU

FQ2 2021 | March 2021

“Berry is committed to remaining at the forefront of the innovation necessary to meet customers’ sustainability goals through investments in the latest equipment technologies, advantaged film development, and design for circularity.”  
– **Tom Salmon**, Chairman and CEO

**WE INVEST IN OUR PIPELINE OF Innovation**

rooted in strong customer partnerships

**CREATE CUSTOMER VALUE WITH Tailored Solutions**

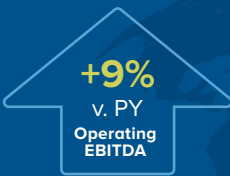

by targeting some of the fastest growing global markets

**SUPPORT CUSTOMER GOALS IN Sustainability**

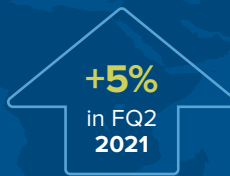

harnessing the strength of our people and global expertise

**Operations**

**Volume Growth**

**Revenue**

**4 of 4 Segments**

**Deliver Organic Growth**

**+4%** Consumer Packaging (International)

**+5%** Consumer Packaging (North America)

**+3%** Engineered Materials

**+8%** Health, Hygiene, & Specialties

**Innovation for the World**

**J-Cloth® Plus Biodegradable**

The original and only contact clearance certified biodegradable and compostable wipe. Produced with 100% natural biodegradable fiber.

**Tethered Closures**

Our CPI segment unveiled a range of closure designs that met EU legislation. These closures remain attached to the container throughout its intended use. All closures can be specified in a variety of colors with a choice of decoration options for enhanced branding and on-shelf appeal.

**Booster-S Sprayer**

This new pre-compression, screw on, sustainable dispensing trigger pump sprayer includes: a modern design with complete customization capabilities, improved ergonomics, and is made from fully recyclable plastic components.

**PCR Ambiente Deo 2000**

We produced an oval deodorant stick containing 95% colored post-consumer recycled (PCR) plastic. This development underlined our ability to incorporate enhanced benefits into its advanced container designs, while it maintained the pack’s performance, functionality, and on-shelf impact.

**+6** 20 Total

**ISCC Certifications**

Ensuring the traceability of recycled and bio-based polymers through the supply chain.
