INDUSTRY AND MARKET DATA

This prospectus supplement and the accompanying prospectus, and any document incorporated by reference into this prospectus supplement and the accompanying prospectus, may include industry and trade association data, forecasts and information that we have prepared based, in part, upon data, forecasts and information obtained from independent trade associations, industry publications and surveys and other information available to us. Some data are also based on our good-faith estimates, which are derived from management's knowledge of the industry and independent sources. Industry publications and surveys and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable. Although we believe these sources are reliable, we have not independently verified the information. In certain of the markets in which we operate, it may be difficult to directly ascertain industry or market data. Unless otherwise noted, statements as to our market share and market position are approximated and based on management experience and estimates using the above-mentioned third-party data combined with our internal analysis and estimates. While we are not aware of any misstatements regarding our industry data presented in the applicable documents, our estimates involve risks and uncertainties and are subject to change based on various factors, including those discussed under the heading "Risk Factors" in this prospectus supplement and the accompanying prospectus, as well as the documents incorporated by reference into this prospectus supplement and the accompanying prospectus. Similarly, while we believe our internal research is reliable, such research has not been verified by any independent sources.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This prospectus supplement contains, and the accompanying prospectus and any free writing prospectus and documents incorporated by reference in this prospectus supplement or the accompanying prospectus supplement may contain, “forward-looking statements” that involve risks and uncertainties. You can identify forward-looking statements because they contain words such as “believes,” “expects,” “may,” “will,” “should,” “would,” “could,” “seeks,” “approximately,” “intends,” “plans,” “estimates,” or “anticipates” or similar expressions that relate to our strategy, plans or intentions. All statements we make relating to our estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and financial results or to our expectations regarding future industry trends are forward-looking statements. In addition, we, through our senior management, from time to time make forward-looking public statements concerning our expected future operations and performance and other developments. These forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those that we expected. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. All forward-looking statements are based upon information available to us on, and speak only as of, the date of the applicable document in which they are contained.

Important factors that could cause actual results to differ materially from our expectations, which we refer to as cautionary statements, are disclosed under the heading “Risk Factors” and elsewhere in this prospectus supplement and the accompanying prospectus, as well as documents incorporated by reference into this prospectus supplement or the accompanying prospectus, as the same may be amended, supplemented or superseded from time to time by our filings under the Exchange Act, including, without limitation, in conjunction with the forward-looking statements included in this prospectus supplement. All forward-looking information in this prospectus supplement, and the accompanying prospectus and any free writing prospectus and documents incorporated by reference in this prospectus supplement or the accompanying prospectus supplement, and subsequent written and oral forward-looking statements attributable to us, or to persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Some of the factors that we believe could affect our results include:

- risks associated with our substantial indebtedness and debt service;
- changes in prices and availability of resin and other raw materials and our ability to pass on changes in raw material prices on a timely basis;
- performance of our business and future operating results;
- risks related to our acquisition strategy and integration of acquired businesses;
- reliance on unpatented know-how and trade secrets;
- increases in the cost of compliance with laws and regulations, including environmental, safety, production and product laws and regulations;
- risks related to disruptions in the overall economy and the financial markets that may adversely impact our business;
- catastrophic loss of one of our key manufacturing facilities, natural disasters and other unplanned business interruptions;
- risks of competition, including foreign competition, in our existing and future markets;
- general business and economic conditions, particularly an economic downturn;
- the ability of our insurance to cover fully our potential exposures; and
- the other factors discussed in the section of this prospectus titled “Risk Factors.”

[Table of Contents](#)

We caution you that the foregoing list of important factors may not contain all of the material factors that are important to you. In addition, in light of these risks and uncertainties, the matters referred to in the forward-looking statements contained in this prospectus supplement and the accompanying prospectus and any free writing prospectus and documents incorporated by reference in this prospectus supplement or the accompanying prospectus may not in fact occur. Accordingly, investors should not place undue reliance on those statements. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

SUMMARY

The following summary highlights information contained elsewhere in this prospectus supplement and the documents we incorporate by reference and is qualified in its entirety by the more detailed information and consolidated financial statements included elsewhere in this prospectus supplement, the accompanying prospectus and the documents we incorporate by reference. This summary is not complete and may not contain all of the information that may be important to you. You should carefully read the entire prospectus, including the "Risk Factors" section and our consolidated financial statements and notes to those statements, before making an investment decision. As used in this prospectus, "Berry," the "company," "we," "our" and "us" mean Berry Plastics Group, Inc. and its subsidiaries on a consolidated basis.

Our Company

We are a leading provider of value-added plastic consumer packaging and engineered materials with a track record of delivering high-quality customized solutions to our customers. Our products utilize our proprietary research and development platform, which includes a continually evolving library of molds, patents, manufacturing techniques and technologies that we own. We sell our solutions predominantly into consumer-oriented end-markets, such as food and beverage, healthcare, and personal care. We believe our customers look to us for solutions that have high consumer impact in terms of form, function, and branding. Representative examples of our products include drink cups, thin-wall containers, bottles, specialty closures, prescription vials, specialty films, tape products, and corrosion protection materials.

We believe that we have created one of the largest product libraries in our industry, allowing us to be a comprehensive solution provider to our customers. We have more than 13,000 customers, which consist of a diverse mix of leading national, mid-sized regional and local specialty businesses. The size and scope of our customer network allows us to introduce new products we develop or acquire to a vast audience that is familiar with, and we believe partial to, our brand. In fiscal 2013, no single customer represented more than 3% of net sales and our top ten customers represented 18% of net sales. We believe our manufacturing processes and our ability to leverage our scale to reduce expenses on items, such as raw materials, position us as a low-cost manufacturer relative to our competitors. For example, we believe based on management estimates that we are one of the largest global purchasers of plastic resins, at more than 2 billion pounds per year, which gives us scaled purchasing savings.

We organize our business into four operating divisions: Rigid Open Top, Rigid Closed Top (which together make up our Rigid Packaging business), Engineered Materials, and Flexible Packaging. Additional financial information about our business segments is provided in "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the "Notes to Consolidated Financial Statements," each of which is incorporated by reference to our Annual Report on Form 10-K for the fiscal year ended September 28, 2013, filed with the SEC on December 11, 2013.

Berry was incorporated in Delaware on November 18, 2005. The principal executive offices of Berry are located at 101 Oakley Street, Evansville, Indiana 47710, and the telephone number is (812) 424-2904. We also maintain an Internet site at <http://www.berryplastics.com>. Our website and the information contained therein or connected thereto shall not be deemed to be incorporated into this prospectus or registration statement of which this prospectus forms a part and you should not rely on any such information in making your investment decision.

Recent Developments

Graphic Packaging

On September 30, 2013, we acquired Graphic Packaging's flexible plastics and films business ("Graphic") for a purchase price of \$62 million. Graphic is a producer of wraps, films, pouches, and bags for the food, medical, industrial, personal care, and pet food markets. The newly acquired business is operated in our Flexible Packaging Division. To finance the purchase, we used cash on hand and existing credit facilities. The Graphic acquisition has been accounted for under the purchase method of accounting, and accordingly, the purchase price has been allocated to the identifiable assets and liabilities based on estimated fair values at the acquisition date. We have not finalized the purchase price allocation to the fair values of fixed assets, deferred income taxes, intangibles and are reviewing the working capital acquired.

Qingdao P&B Co., Ltd

In January 2014, we announced that our acquisition of the controlling interest of Qingdao P&B Co., Ltd ("P&B") was approved by the competent approval authority in China. P&B utilizes thermoform, injection, and automated assembly manufacturing processes to produce products for multiple markets across China as well as globally, most predominately serving the food and personal care markets. P&B has annual revenues of \$34 million and will operate in our Flexible Packaging Division after the transaction closes.

2014 Cost Reduction Plan

In November 2013, we initiated a cost reduction plan designed to deliver meaningful cost savings and optimal equipment utilization. This plan will result in several plant rationalizations. We expect to incur approximately \$50 million of total costs throughout fiscal 2014 related to this plan. These costs will primarily consist of one-time costs associated with facility consolidation, including severance and termination benefits, other costs associated with exiting facilities and non-cash asset impairment charges.

Incremental Term Loan

In January 2014, we entered into an incremental assumption agreement to increase the commitments under BPC's existing term loan credit agreement by \$1,125 million. BPC borrowed loans in an aggregate principal amount equal to the full amount of the commitments on such date. The incremental term loans bear interest at LIBOR plus 2.75% per annum with a LIBOR floor of 1.00%, mature in January 2021 and are subject to customary amortization. The proceeds from the incremental term loan, in addition to existing liquidity, were used to satisfy BPC's outstanding term loan facility that was to mature in April 2015.

Principal Stockholders

Our principal stockholders are Apollo Investment Fund VI, L.P., Apollo Investment Fund V, L.P. and their parallel investment funds (collectively, the "Apollo Funds"). The Apollo Funds are affiliated with or indirectly managed by Apollo Global Management, LLC, which, together with its subsidiaries, we refer to in this prospectus supplement as "Apollo." Founded in 1990, Apollo is one of the world's largest alternative investment managers, with total assets under management of approximately \$161.2 billion as of December 31, 2013, and a team of 277 investment professionals located in ten offices around the world.

RISK FACTORS

An investment in our securities involves a high degree of risk. You should carefully consider the risk factors described below as well as the risk factors described in our Annual Report on Form 10-K for the fiscal year ended September 28, 2013 and any risk factors set forth in the documents that are incorporated in this prospectus supplement or the accompanying prospectus, as the same may be amended, supplemented or superseded from time to time by our filings under the Exchange Act. Before making any investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus supplement and the accompanying prospectus. Any of these risks could materially and adversely affect our business, financial condition, results of operations or cash flows. The risks and uncertainties we face are not limited to those described in these documents. Additional risks and uncertainties that we are unaware of or that we believe are less significant than those set forth in the risk factors described in these documents at the time of the applicable document could also materially adversely affect our business, financial condition, results of operations or cash flows and/or the value of your investment. In any case, the value of our securities could decline, and you could lose all or part of your investment. See also the information contained under the heading "Cautionary Statement Concerning Forward-Looking Statements."

Risks Related to an Investment in our Common Stock and this Offering

The price of our common stock may fluctuate significantly and you could lose all or part of your investment.

Volatility in the market price of our common stock may prevent you from being able to sell your shares of common stock at or above the price you paid for them. The market price for our common stock may be volatile, in part because our shares have only been traded publicly since October 2012, and such volatility may be exacerbated by our relatively small public float. The market price for our common stock could fluctuate significantly for a number of other reasons, including:

- our operating and financial performance and prospects;
- our quarterly or annual earnings or those of other companies in our industry;
- conditions that impact demand for our products and services;
- future announcements concerning our business or our competitors' businesses;
- the public's reaction to our press releases, other public announcements and filings with the SEC;
- changes in earnings estimates or recommendations by securities analysts who track our common stock;
- market and industry perception of our success, or lack thereof, in pursuing our growth strategy;
- strategic actions by us or our competitors, such as acquisitions or restructurings;
- changes in government and environmental regulation;
- general market, economic and political conditions;
- changes in accounting standards, policies, guidance, interpretations or principles;
- arrival and departure of key personnel;
- the number of shares to be publicly traded after this offering;
- sales of common stock by us, the Apollo Funds or members of our management team;
- adverse resolution of new or pending litigation against us;
- changes in general market, economic and political conditions in the United States and global economies or financial markets, including those resulting from natural disasters, terrorist attacks, acts of war and responses to such events; and
- material weakness in our internal costs over financial reporting.

[Table of Contents](#)

In addition, in recent years, the stock market has experienced significant price and volume fluctuations. This volatility has had a significant impact on the market price of securities issued by many companies. The changes frequently appear to occur without regard to the operating performance of the affected companies. Hence, the price of our common stock could fluctuate based upon factors that have little or nothing to do with the company, and these fluctuations could materially reduce our share price.

Apollo controls us, and its interests may conflict with or differ from your interests as a stockholder.

After the consummation of this offering, the Apollo Funds will indirectly beneficially own approximately 21.2% of our common stock.

The amended and restated stockholders agreement that we entered into in connection with our initial public offering provides that, except as otherwise required by applicable law, if the Apollo Funds hold (a) at least 20% but less than 30% of our outstanding common stock, they will have the right to designate up to four director nominees, and (b) at least 10% but less than 20% of our outstanding common stock, they will have the right to designate up to three director nominees. The agreement also provides that if the size of the Board of Directors is increased or decreased at any time, Apollo's nomination rights will be proportionately increased or decreased, respectively, rounded up to the nearest whole number. Therefore, Apollo will, following this offering, continue to be able to significantly influence or effectively control our decisions. See "Corporate Governance—Transactions with Related Persons," incorporated by reference into this prospectus from our Definitive Proxy Statement for the 2014 Annual Meeting of Stockholders, filed with the SEC on January 27, 2014.

The interests of Apollo could conflict with or differ from your interests as a holder of our common stock. For example, the concentration of ownership held by the Apollo Funds and Apollo's rights under the amended and restated stockholders agreement could delay, defer or prevent a change of control of the company or impede a merger, takeover or other business combination that you as a stockholder may otherwise view favorably. In addition, a sale of a substantial number of shares of stock in the future by the Apollo Funds could cause our stock price to decline.

Additionally, Apollo is in the business of making or advising on investments in companies and holds (and may from time to time in the future acquire) interests in or provides advice to businesses that directly or indirectly compete with certain portions of our business or are suppliers or customers of ours. Apollo may also pursue acquisitions that may be complementary to our business and, as a result, those acquisition opportunities may not be available to us.

Although we are no longer a "controlled company" within the meaning of the NYSE rules, we may continue to rely on exemptions from certain corporate governance requirements during a one-year transition period.

After the consummation of our April 2013 public offering, the Apollo Funds no longer controlled a majority of our voting common stock. As a result, following our April 2013 public offering, we no longer qualified as a "controlled company" within the meaning of the NYSE corporate governance standards. The NYSE rules require that we appoint a majority of independent directors to the Board of Directors, and compensation and nominating and governance committees composed entirely of independent directors, by April 24, 2014, which is one year after the date we no longer qualified as a "controlled company." During this transition period, we may elect not to comply with certain NYSE corporate governance requirements, including:

- the requirement that a majority of the Board of Directors consists of independent directors;
- the requirement that we have a nominating and corporate governance committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities; and

Table of Contents

- the requirement that we have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities.

Accordingly, during these transition periods, stockholders will not have the same protections afforded to stockholders of companies that are subject to such corporate governance requirements. In addition, although we are no longer a controlled company within the meaning of the NYSE rules, Apollo continues and, following this offering, will continue, to be able to significantly influence or effectively control our decisions. See “—*Apollo controls us, and its interests may conflict with or differ from your interests as a stockholder.*”

We have no plans to pay regular dividends on our common stock, so you may not receive funds without selling your common stock.

We have no plans to pay regular dividends on our common stock. Any declaration and payment of future dividends to holders of our common stock may be limited by restrictive covenants of our debt agreements, will be at the sole discretion of our Board of Directors and will depend on many factors, including our financial condition, earnings, capital requirements, level of indebtedness, statutory and contractual restrictions applying to the payment of dividends and other considerations that our Board of Directors deems relevant.

The terms of our senior secured credit facilities and the indentures governing our notes may restrict our ability to pay cash dividends on our common stock. Our debt instruments contain covenants that restrict our ability to pay dividends on our common stock, as well as the ability of our subsidiaries to pay dividends to us. Furthermore, we will be permitted under the terms of our debt instrument to incur additional indebtedness, which may restrict or prevent us from paying dividends on our common stock. Agreements governing any future indebtedness, in addition to those governing our current indebtedness, may not permit us to pay dividends on our common stock.

Future sales or the possibility of future sales of a substantial amount of our common stock may depress the price of shares of our common stock.

Future sales or the availability for sale of substantial amounts of our common stock in the public market could adversely affect the prevailing market price of our common stock and could impair our ability to raise capital through future sales of equity securities.

Our amended and restated certificate of incorporation provides for 450 million authorized shares, of which 400 million shares, par value \$0.01, are designated as common stock and 50 million shares, par value \$0.01, are designated as preferred stock. Both before and upon completion of this offering, we will have an aggregate of 116,605,593 shares of our common stock outstanding. The 24,728,218 shares of our common stock beneficially owned by the Apollo Funds following this offering, as well as any remaining shares of our common stock that were issued and outstanding prior to our initial public offering that have not been sold or had their legends removed pursuant to Rule 144, will be restricted securities, as that term is defined in Rule 144, and may in the future be sold without restriction under the Securities Act to the extent permitted by Rule 144 or any applicable exemption under the Securities Act and subject to any applicable lock-up agreements. In addition, we have granted Apollo and investment funds affiliated with or managed by Graham Partners, Inc. (collectively, the “Graham Fund”) demand and incidental registration rights, and we have also granted certain employees and others who own equity in the company incidental registration rights.

We may issue shares of our common stock or other securities from time to time as consideration for future acquisitions and investments. If any such acquisition or investment is significant, the number of shares of our common stock, or the number or aggregate principal amount, as the case may be, of other securities that we may issue may in turn be substantial. We may also grant registration rights covering those shares of our common stock or other securities in connection with any such acquisitions and investments.

We cannot predict the size of future issuances of our common stock or the effect, if any, that future issuances and sales of our common stock will have on the market price of our common stock. Sales of substantial amounts of our common stock (including shares of our common stock issued in connection with an acquisition), or the perception that such sales could occur, including such sales by the Apollo Funds and the Graham Fund, may adversely affect prevailing market prices for our common stock.

Delaware law and our organizational documents may impede or discourage a takeover, which could deprive our investors of the opportunity to receive a premium for their shares.

We are a Delaware corporation, and the anti-takeover provisions of Delaware law impose various impediments to the ability of a third party to acquire control of us, even if a change of control would be beneficial to our existing stockholders. In addition, provisions of our amended and restated certificate of incorporation and bylaws may make it more difficult for, or prevent a third party from, acquiring control of us without the approval of our Board of Directors. Among other things, these provisions:

- classify our Board of Directors so that only some of our directors are elected each year;
- do not permit cumulative voting in the election of directors, which would otherwise allow less than a majority of stockholders to elect director candidates;
- delegate the sole power of a majority of the Board of Directors to fix the number of directors;
- provide the power of our Board of Directors to fill any vacancy on our board, whether such vacancy occurs as a result of an increase in the number of directors or otherwise;
- authorize the issuance of “blank check” preferred stock without any need for action by stockholders;
- eliminate the ability of stockholders to call special meetings of stockholders;
- prohibit stockholders from acting by written consent if less than 50.1% of our outstanding common stock is controlled by the Apollo Funds; and
- establish advance notice requirements for nominations for election to our Board of Directors or for proposing matters that can be acted on by stockholders at stockholder meetings.

See “Corporate Governance—Transactions with Related Persons,” incorporated by reference into this prospectus from our Definitive Proxy Statement for the 2014 Annual Meeting of Stockholders, filed with the SEC on January 27, 2014.

The foregoing factors, as well as the significant common stock ownership by our equity sponsor, could impede a merger, takeover or other business combination or discourage a potential investor from making a tender offer for our common stock, which, under certain circumstances, could reduce the market value of our common stock.

We may issue shares of preferred stock in the future, which could make it difficult for another company to acquire us or could otherwise adversely affect holders of our common stock, which could depress the price of our common stock.

Our amended and restated certificate of incorporation authorizes us to issue one or more series of preferred stock. Our Board of Directors has the authority to determine the preferences, limitations and relative rights of shares of preferred stock and to fix the number of shares constituting any series and the designation of such series, without any further vote or action by our stockholders. Our preferred stock could be issued with voting,

[Table of Contents](#)

liquidation, dividend and other rights superior to the rights of our common stock. The potential issuance of preferred stock may delay or prevent a change in control of us, discouraging bids for our common stock at a premium to the market price, and materially and adversely affect the market price and the voting and other rights of the holders of our common stock.

If securities analysts do not publish research or reports about our company, or if they issue unfavorable commentary about us or our industry or downgrade our common stock, the price of our common stock could decline.

The trading market for our common stock depends in part on the research and reports that third-party securities analysts publish about our company and our industry. One or more analysts could downgrade our common stock or issue other negative commentary about our company or our industry. In addition, we may be unable or slow to attract research coverage. Alternatively, if one or more of these analysts cease coverage of our company, we could lose visibility in the market. As a result of one or more of these factors, the trading price of our common stock could decline.

USE OF PROCEEDS

The selling stockholders will receive all of the net proceeds from the sales of shares of our common stock offered by them pursuant to this prospectus. We will not receive any proceeds from the sale of these shares of our common stock, and we will bear all expenses, other than any underwriting commissions and discounts, attributable to the sale of securities by the selling stockholders. See “Selling Stockholders.”

DIVIDEND POLICY

We historically have not paid dividends on our common stock and we do not currently anticipate paying dividends on our common stock. Any declaration and payment of future dividends to holders of our common stock will be at the discretion of our Board of Directors and will depend on many factors, including our financial condition, earnings, capital requirements, level of indebtedness, statutory and contractual restrictions applying to the payment of dividends and other considerations that our Board of Directors deems relevant. Because we are a holding company and have no direct operations, we will only be able to pay dividends from our available cash on hand and any funds we receive from our subsidiaries. The terms of our indebtedness may restrict us from paying dividends, or may restrict our subsidiaries from paying dividends to us. Under Delaware law, dividends may be payable only out of surplus, which is our net assets minus our liabilities and our capital, or, if we have no surplus, out of our net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources” and “Note 3—Long-Term Debt” included in our Annual Report on Form 10-K for the fiscal year ended September 28, 2013, filed with the SEC on December 11, 2013 and incorporated by reference herein.

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS FOR NON-U.S. HOLDERS

The following is a general discussion of material U.S. federal income tax considerations with respect to the ownership and disposition of our common stock applicable to non-U.S. holders who acquire such shares in this offering. This discussion is based on current provisions of the Internal Revenue Code of 1986, as amended (the “Code”), U.S. Treasury regulations promulgated thereunder, and administrative rulings and court decisions in effect as of the date hereof, all of which are subject to change at any time, possibly with retroactive effect.

For purposes of this discussion, the term “non-U.S. holder” means a beneficial owner of our common stock that is not, for U.S. federal income tax purposes, a partnership or any of the following:

- a citizen or resident of the United States;
- a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, created or organized in the United States or under the laws of the United States, any state thereof or the District of Columbia;
- an estate, the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or
- a trust if (1) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) it has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person for U.S. federal income tax purposes.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds shares of our common stock, the tax treatment of a person treated as a partner generally will depend on the status of the partner and the activities of the partnership. Persons that for U.S. federal income tax purposes are treated as a partner in a partnership holding shares of our common stock should consult their tax advisors.

This discussion assumes that a non-U.S. holder holds shares of our common stock as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all aspects of U.S. federal income taxation that may be important to a non-U.S. holder in light of that holder’s particular circumstances or that may be applicable to holders subject to special treatment under U.S. federal income tax law (including, for example, financial institutions, dealers in securities, traders in securities that elect mark-to-market treatment, insurance companies, tax-exempt entities, holders who acquired our common stock pursuant to the exercise of employee stock options or otherwise as compensation, entities or arrangements treated as partnerships for U.S. federal income tax purposes, holders liable for the alternative minimum tax, certain former citizens or former long-term residents of the United States, and holders who hold our common stock as part of a hedge, straddle, constructive sale or conversion transaction). In addition, this discussion does not address U.S. federal tax laws other than those pertaining to the U.S. federal income tax, nor does it address any aspects of the unearned income Medicare contribution tax pursuant to the Health Care and Education Reconciliation Act of 2010, or U.S. state, local or non-U.S. taxes. Accordingly, prospective investors should consult with their own tax advisors regarding the U.S. federal, state, local, non-U.S. income and other tax considerations of acquiring, holding and disposing of shares of our common stock.

THIS SUMMARY IS NOT INTENDED TO CONSTITUTE A COMPLETE DESCRIPTION OF ALL TAX CONSEQUENCES RELATING TO THE OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK. WE RECOMMEND THAT PROSPECTIVE HOLDERS OF OUR COMMON STOCK CONSULT WITH THEIR TAX ADVISORS REGARDING THE TAX CONSEQUENCES TO THEM (INCLUDING THE APPLICATION AND EFFECT OF ANY STATE, LOCAL, NON-U.S. INCOME AND OTHER TAX LAWS) OF THE OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK.

Dividends

In general, any distributions we make to a non-U.S. holder with respect to its shares of our common stock that constitute dividends for U.S. federal income tax purposes will be subject to U.S. withholding tax at a rate of 30% of the gross amount (or a reduced rate prescribed by an applicable income tax treaty) unless the dividends are effectively connected with a trade or business carried on by the non-U.S. holder within the United States (and, if an income tax treaty applies, are attributable to a permanent establishment of the non-U.S. holder within the United States). A distribution will constitute a dividend for U.S. federal income tax purposes to the extent of our current or accumulated earnings and profits as determined for U.S. federal income tax purposes. Any distribution not constituting a dividend will be treated as first reducing the adjusted basis in the non-U.S. holder's shares of our common stock and, to the extent it exceeds the adjusted basis in the non-U.S. holder's shares of our common stock, as gain from the sale or exchange of such shares.

Dividends effectively connected with a U.S. trade or business (and, if an income tax treaty applies, attributable to a U.S. permanent establishment) of a non-U.S. holder generally will not be subject to U.S. withholding tax if the non-U.S. holder complies with applicable certification and disclosure requirements. Instead, such dividends generally will be subject to U.S. federal income tax on a net income basis, in the same manner as if the non-U.S. holder were a resident of the United States. A non-U.S. holder that is a corporation may be subject to an additional "branch profits tax" at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty) on its "effectively connected earnings and profits," subject to certain adjustments.

Gain on Sale or Other Disposition of our Common Stock

In general, a non-U.S. holder will not be subject to U.S. federal income or, subject to the discussion below under the heading "Information Reporting and Backup Withholding," withholding tax on any gain realized upon the sale or other disposition of our common stock unless:

- the gain is effectively connected with a trade or business carried on by the non-U.S. holder within the United States and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment of the non-U.S. holder;
- the non-U.S. holder is an individual and is present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are satisfied; or
- we are or have been a U.S. real property holding corporation (a "USRPHC") for U.S. federal income tax purposes at any time within the shorter of the five-year period ending on the date of the disposition and the non-U.S. holder's holding period and certain other conditions are satisfied. We believe that we currently are not, and we do not anticipate becoming, a USRPHC.

Gain that is effectively connected with the conduct of a trade or business in the United States generally will be subject to U.S. federal income tax, net of certain deductions, at regular U.S. federal income tax rates. If the non-U.S. holder is a foreign corporation, the branch profits tax described above also may apply to such effectively connected gain. An individual non-U.S. holder who is subject to U.S. federal income tax because the non-U.S. holder was present in the United States for 183 days or more during the year of sale or other disposition of our common stock will be subject to a flat 30% tax on the gain derived from such sale or other disposition, which may be offset by U.S. source capital losses.

Information Reporting and Backup Withholding

We must report annually to the Internal Revenue Service and to each non-U.S. holder the amount of dividends paid to, and the tax withheld with respect to, each non-U.S. holder. These reporting requirements apply regardless of whether withholding was reduced or eliminated by an applicable tax treaty. Copies of this information also may be made available under the provisions of a specific treaty or agreement with the tax authorities in the country in which the non-U.S. holder resides or is established.

[Table of Contents](#)

U.S. backup withholding tax (currently, at a rate of 28%) is imposed on certain payments to persons that fail to furnish the information required under the U.S. information reporting rules. Dividends paid to a non-U.S. holder generally will be exempt from backup withholding if the non-U.S. holder provides a properly executed IRS Form W-8BEN or otherwise establishes an exemption.

Under U.S. Treasury regulations, the payment of proceeds from the disposition of our common stock by a non-U.S. holder effected at a U.S. office of a broker generally will be subject to information reporting and backup withholding, unless the beneficial owner, under penalties of perjury, certifies, among other things, its status as a non-U.S. holder or otherwise establishes an exemption. The payment of proceeds from the disposition of our common stock by a non-U.S. holder effected at a non-U.S. office of a broker generally will not be subject to backup withholding and information reporting, except as noted below. In the case of proceeds from a disposition of our common stock by a non-U.S. holder effected at a non-U.S. office of a broker that is:

- a U.S. person;
- a “controlled foreign corporation” for U.S. federal income tax purposes;
- a foreign person 50% or more of whose gross income from certain periods is effectively connected with a U.S. trade or business; or
- a foreign partnership if at any time during its tax year (a) one or more of its partners are U.S. persons who, in the aggregate, hold more than 50% of the income or capital interests of the partnership or (b) the foreign partnership is engaged in a U.S. trade or business;

information reporting will apply unless the broker has documentary evidence in its files that the owner is a non-U.S. holder and certain other conditions are satisfied, or the beneficial owner otherwise establishes an exemption (and the broker has no knowledge or reason to know to the contrary). Backup withholding will apply if the sale is subject to information reporting and the broker has actual knowledge that you are a United States person.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a non-U.S. holder can be refunded or credited against the non-U.S. holder’s U.S. federal income tax liability, if any, provided that the required information is furnished to the Internal Revenue Service in a timely manner.

New Legislation

Under recently enacted legislation and administrative guidance, a United States federal withholding tax of 30% generally will be imposed on certain payments made to a “foreign financial institution” (as specifically defined under these rules) unless such institution enters into an agreement with the U.S. tax authorities to withhold on certain payments and to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which includes certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners). Under the legislation and administrative guidance, a U.S. federal withholding tax of 30% generally also will be imposed on certain payments made to a non-financial foreign entity unless such entity provides the withholding agent with a certification identifying its direct and indirect U.S. owners. Under certain circumstances, a non-U.S. holder might be eligible for refunds or credits of such taxes. These withholding taxes would be imposed on dividends paid with respect to our common stock after June 30, 2014 to, and on gross proceeds from sales or other dispositions of our common stock after December 31, 2016 by, foreign financial institutions or non-financial entities (including in their capacity as agents or custodians for beneficial owners of our common stock) that fail to satisfy the above requirements. Prospective non-U.S. holders should consult with their tax advisors regarding the possible implications of this legislation on their investment in our common stock.

UNDERWRITING

Subject to the terms and conditions set forth in an underwriting agreement among us, the selling stockholders and Citigroup Global Markets Inc., the sole underwriter, the selling stockholders have agreed to sell to the underwriter, and the underwriter has agreed to purchase from the selling stockholders, 9,000,000 shares of common stock.

The underwriting agreement provides that the underwriter will purchase all of the shares of common stock if any of the shares are purchased. In the underwriting agreement, we and the selling stockholders have agreed not to, and not to permit any of our subsidiaries to, offer, sell, contract to sell or otherwise dispose of, any shares of common stock within 60 days of the date of this prospectus supplement without the prior consent of the underwriter, subject to certain exceptions. The underwriter may offer and sell the common stock through its affiliates. The offering of the common stock by the underwriter is subject to receipt and acceptance and subject to the underwriter's right to reject any order in whole or in part.

The underwriting agreement provides that the obligations of the underwriter are subject to certain conditions precedent, including the receipt of certain customary closing documents from us, our counsel, our independent registered public accounting firm and the selling stockholders and their counsel. The underwriter is offering the shares of common stock, subject to the prior sale of shares, and when, as and if such shares are delivered to and accepted by it. The underwriter proposes to offer the common stock offered hereby from time to time for sale in one or more transactions on the NYSE, in the over-the-counter market, through negotiated transactions or otherwise at market prices prevailing at the time of sale, at prices related to prevailing market prices or at negotiated prices, subject to receipt and acceptance by it and subject to its right to reject any order in whole or in part. The underwriter may effect such transactions by selling the common stock to or through dealers and such dealers may receive compensation in the form of discounts, concessions or commissions from the underwriter and/or purchasers of common stock for whom they may act as agents or to whom they may sell as principal. The difference between the price at which the underwriter purchases the shares and the price at which the underwriter resells the shares may be deemed an underwriting commission.

It is possible that the shares will not trade at or above the offering price following the offering.

In connection with this offering, the underwriter may purchase and sell shares of common stock in the open market. These transactions may include short sales and purchases to cover positions created by short sales. Short sales involve the sale by the underwriter of a greater number of shares than it is required to purchase in this offering. The underwriter may close out any short sale by purchasing shares in the open market. The underwriter is likely to create a short position if it is concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in this offering.

Purchases to cover a short position, as well as other purchases by the underwriter for its own account, may have the effect of preventing or retarding a decline in the market price of the company's stock, and may maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on the NYSE, in the over-the-counter market or otherwise.

The company has agreed to pay all expenses of the selling stockholders in this offering, excluding deemed underwriting discounts and commissions. The company estimates that its share of the total expenses of this offering, excluding deemed underwriting discounts and commissions, will be approximately \$0.7 million.

We and the selling stockholders have agreed to indemnify the underwriter against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriter may be required to make in respect of those liabilities.

Notice to Prospective Investors in the European Economic Area

In relation to each Member State of the European Economic Area (each, a “Relevant Member State”), no offer of shares may be made to the public in that Relevant Member State other than:

- A. to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- B. to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the representatives; or
- C. in any other circumstances falling within Article 3(2) of the Prospectus Directive,
provided that no such offer of shares shall require the Company or the representatives to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person in a Relevant Member State who initially acquires any shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed that it is a “qualified investor” within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive. In the case of any shares being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any shares to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the representatives has been obtained to each such proposed offer or resale.

The Company, the representatives and their affiliates will rely upon the truth and accuracy of the foregoing representations, acknowledgements and agreements.

[Table of Contents](#)

This prospectus has been prepared on the basis that any offer of shares in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. Accordingly any person making or intending to make an offer in that Relevant Member State of shares which are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for the Company or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the Company nor the underwriters have authorized, nor do they authorize, the making of any offer of shares in circumstances in which an obligation arises for the Company or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression “an offer to the public” in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression “Prospectus Directive” means Directive 2003/71/EC (including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State and the expression “2010 PD Amending Directive” means Directive 2010/73/EU.

INDUSTRY AND MARKET DATA

This prospectus and any accompanying prospectus supplement, and any document incorporated by reference into this prospectus and any accompanying prospectus supplement, may include industry and trade association data, forecasts and information that we have prepared based, in part, upon data, forecasts and information obtained from independent trade associations, industry publications and surveys and other information available to us. Some data are also based on our good-faith estimates, which are derived from management's knowledge of the industry and independent sources. Industry publications and surveys and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable. Although we believe these sources are reliable, we have not independently verified the information. In certain of the markets in which we operate, it may be difficult to directly ascertain industry or market data. Unless otherwise noted, statements as to our market share and market position are approximated and based on management experience and estimates using the above-mentioned third-party data combined with our internal analysis and estimates. While we are not aware of any misstatements regarding our industry data presented in the applicable documents, our estimates involve risks and uncertainties and are subject to change based on various factors, including those discussed under the heading "Risk Factors" in this prospectus and any accompanying prospectus supplement, as well as the documents incorporated by reference into this prospectus and any accompanying prospectus supplement. Similarly, while we believe our internal research is reliable, such research has not been verified by any independent sources.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This prospectus contains, and any prospectus supplement, free writing prospectus and documents incorporated by reference in this prospectus or any prospectus supplement may contain, “forward-looking statements” that involve risks and uncertainties. You can identify forward-looking statements because they contain words such as “believes,” “expects,” “may,” “will,” “should,” “would,” “could,” “seeks,” “approximately,” “intends,” “plans,” “estimates,” or “anticipates” or similar expressions that relate to our strategy, plans or intentions. All statements we make relating to our estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and financial results or to our expectations regarding future industry trends are forward-looking statements. In addition, we, through our senior management, from time to time make forward-looking public statements concerning our expected future operations and performance and other developments. These forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those that we expected. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. All forward-looking statements are based upon information available to us on, and speak only as of, the date of the applicable document in which they are contained.

Important factors that could cause actual results to differ materially from our expectations, which we refer to as cautionary statements, are disclosed under the heading “Risk Factors” and elsewhere in this prospectus and any prospectus supplement, as well as documents incorporated by reference into this prospectus or any prospectus supplement, as the same may be amended, supplemented or superseded from time to time by our filings under the Exchange Act, including, without limitation, in conjunction with the forward-looking statements included in this prospectus. All forward-looking information in this prospectus, and any prospectus supplement, free writing prospectus and documents incorporated by reference in this prospectus or any prospectus supplement, and subsequent written and oral forward-looking statements attributable to us, or to persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Some of the factors that we believe could affect our results include:

- risks associated with our substantial indebtedness and debt service;
- changes in prices and availability of resin and other raw materials and our ability to pass on changes in raw material prices on a timely basis;
- performance of our business and future operating results;
- risks related to our acquisition strategy and integration of acquired businesses;
- reliance on unpatented know-how and trade secrets;
- increases in the cost of compliance with laws and regulations, including environmental, safety, production and product laws and regulations;
- risks related to disruptions in the overall economy and the financial markets that may adversely impact our business;
- catastrophic loss of one of our key manufacturing facilities, natural disasters and other unplanned business interruptions;
- risks of competition, including foreign competition, in our existing and future markets;
- general business and economic conditions, particularly an economic downturn;
- the ability of our insurance to cover fully our potential exposures; and
- the other factors discussed in the section of this prospectus and the documents incorporated by reference herein under the headings “Risk Factors.”

[Table of Contents](#)

We caution you that the foregoing list of important factors may not contain all of the material factors that are important to you. In addition, in light of these risks and uncertainties, the matters referred to in the forward-looking statements contained in this prospectus and any prospectus supplement, free writing prospectus and documents incorporated by reference in this prospectus or any prospectus supplement may not in fact occur. Accordingly, investors should not place undue reliance on those statements. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

THE COMPANY

We are a leading provider of value-added plastic consumer packaging and engineered materials with a track record of delivering high-quality customized solutions to our customers. Our products utilize our proprietary research and development platform, which includes a continually evolving library of Berry-owned molds, patents, manufacturing techniques and technologies. We sell our solutions predominantly into consumer-oriented end-markets, such as food and beverage, healthcare, and personal care. We believe our customers look to us for solutions that have high consumer impact in terms of form, function, and branding. Representative examples of our products include drink cups, thin-wall containers, bottles, specialty closures, prescription vials, specialty films, tape products, and corrosion protection materials.

We believe that we have created one of the largest product libraries in our industry, allowing us to be a comprehensive solution provider to our customers. We have more than 13,000 customers, which consist of a diverse mix of leading national, mid-sized regional and local specialty businesses. The size and scope of our customer network allows us to introduce new products we develop or acquire to a vast audience that is familiar with, and we believe partial to, our brand. In fiscal 2013, no single customer represented more than 3% of net sales and our top ten customers represented 18% of net sales. We believe our manufacturing processes and our ability to leverage our scale to reduce expenses on items, such as raw materials, position us as a low-cost manufacturer relative to our competitors. For example, we believe based on management estimates that we are one of the largest global purchasers of plastic resins, at more than 2 billion pounds per year, which gives us scaled purchasing savings.

We organize our business into four operating divisions: Rigid Open Top, Rigid Closed Top (which together make up our Rigid Packaging business), Engineered Materials, and Flexible Packaging. Additional financial information about our business segments is provided in "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the "Notes to Consolidated Financial Statements," each of which is incorporated by reference to our Annual Report on Form 10-K for the fiscal year ended September 28, 2013, filed with the SEC on December 11, 2013.

Berry was incorporated in Delaware on November 18, 2005. The principal executive offices of Berry are located at 101 Oakley Street, Evansville, Indiana 47710, and the telephone number is (812) 424-2904. We also maintain an Internet site at <http://www.berryplastics.com>. Our website and the information contained therein or connected thereto shall not be deemed to be incorporated into this prospectus or registration statement of which this prospectus forms a part and you should not rely on any such information in making your investment decision.

RISK FACTORS

An investment in our securities involves a high degree of risk. You should carefully consider the risk factors described in our Annual Report on Form 10-K for the fiscal year ended September 28, 2013, the risk factors described under the heading “Risk Factors” in any applicable prospectus supplement and any risk factors set forth in the documents that are incorporated in this prospectus or any applicable prospectus supplement, as the same may be amended, supplemented or superseded from time to time by our filings under the Exchange Act. Before making any investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus or in any applicable prospectus supplement. Any of these risks could materially and adversely affect our business, financial condition, results of operations or cash flows. The risks and uncertainties we face are not limited to those described in these documents. Additional risks and uncertainties that we are unaware of or that we believe are less significant than those set forth in the risk factors described in these documents at the time of the applicable document could also materially adversely affect our business, financial condition, results of operations or cash flows and/or the value of your investment. In any case, the value of our securities could decline, and you could lose all or part of your investment. See also the information contained under the heading “Cautionary Statement Concerning Forward-Looking Statements.”

USE OF PROCEEDS

Unless the applicable prospectus supplement states otherwise, the net proceeds from the sale of the securities by us will be used for general corporate purposes. We will not receive any proceeds from the sale of the securities by selling stockholders, and we will bear all expenses, other than any underwriting commissions and discounts, attributable to the sale of securities by the selling stockholders.

RATIO OF EARNINGS TO FIXED CHARGES

The table below sets forth Berry's ratio of earnings to fixed charges. We have not presented a ratio of earnings to fixed charges and preferred stock dividends because we did not have preferred stock outstanding as of the date of this prospectus. The following table should be read in conjunction with our consolidated financial statements and related notes and Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the fiscal year ended September 28, 2013, which is incorporated by reference in this prospectus. For further information, see Exhibit 12.1 (Computation of Ratio of Earnings to Fixed Charges) to the registration statement of which this prospectus forms a part.

Ratio	Quarterly Period Ended		Fiscal Year Ended				
	December 28, 2013	December 29, 2012	September 28, 2013	September 29, 2012	October 1, 2011	October 2, 2010	September 26, 2009
	1.1x	0.8x(a)	1.3x	1.0x(a)	—(a)	—(a)	1.8x

(a) Earnings, as adjusted, were inadequate to cover fixed charges by \$164 million, \$349 million and \$1 million, respectively, for the fiscal years ended October 2, 2010, October 1, 2011 and September 29, 2012, and by \$16 million for the quarterly period ended December 29, 2012.

Because we had no preferred stock outstanding during any of the periods presented, the ratio of earnings to fixed charges and ratio of earnings to combined fixed charges and preferred dividends are the same.

SELLING STOCKHOLDERS

This prospectus also relates to the possible resale from time to time of shares of our common stock by selling stockholders. Where applicable, information about selling stockholders, including their identities, the common stock to be registered on their behalf and the amounts to be sold by them, will be set forth in a prospectus supplement, in a post-effective amendment or in filings we make with the SEC under the Exchange Act that are incorporated by reference in this prospectus. The selling stockholders may include certain of our affiliates.

DESCRIPTION OF CAPITAL STOCK

The following is a description of the material terms of our amended and restated certificate of incorporation and amended and restated bylaws, and of specific provisions of Delaware law.

General

Our capital stock consists of a total of 450 million authorized shares, of which 400 million shares, par value \$0.01 per share, are designated as common stock and 50 million shares, par value \$0.01 per share, are designated as preferred stock. As of February 13, 2014, there were 116,605,593 shares of common stock and no shares of preferred stock outstanding.

Common Stock

Voting Rights. Holders of common stock are entitled to one vote per share on all matters to be voted upon by the stockholders. The holders of common stock do not have cumulative voting rights in the election of directors.

Dividend Rights. Holders of common stock are entitled to receive ratably dividends if, as and when dividends are declared from time to time by our Board of Directors out of funds legally available for that purpose, after payment of dividends required to be paid on outstanding preferred stock, as described below, if any. Under Delaware law, we can only pay dividends either out of “surplus” or out of the current or the immediately preceding year’s net profits. Surplus is defined as the excess, if any, at any given time, of the total assets of a corporation over its total liabilities and statutory capital. The value of a corporation’s assets can be measured in a number of ways and may not necessarily equal their book value.

Liquidation Rights. Upon liquidation, dissolution or winding up, the holders of common stock are entitled to receive ratably the assets available for distribution to the stockholders after payment of liabilities and accrued but unpaid dividends and liquidation preferences on any outstanding preferred stock.

Other Matters. The common stock has no preemptive or conversion rights. There are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of our common stock are fully paid and non-assessable, and the shares of our common stock offered in this offering, upon payment and delivery in accordance with the underwriting agreement, will be fully paid and non-assessable.

Preferred Stock

Pursuant to our amended and restated certificate of incorporation, shares of preferred stock are issuable from time to time, in one or more series, with the designations of the series, the voting rights of the shares of the series (if any), the powers, preferences and relative, participation, optional or other special rights (if any), and any qualifications, limitations or restrictions thereof as our Board of Directors from time to time may adopt by resolution (and without further stockholder approval), subject to certain limitations. Each series will consist of that number of shares as will be stated and expressed in the certificate of designations providing for the issuance of the stock of the series.

A prospectus supplement relating to any series of preferred stock being offered will include specific terms relating to the offering. They will include, where applicable:

- the title and stated value of the series of shares of preferred stock and the number of shares constituting that series;
- the number of shares of the series of preferred stock offered, the liquidation preference per share and the offering price of the shares of preferred stock;
- the dividend rate(s), period(s) and/or payment date(s) or the method(s) of calculation for those values relating to the shares of preferred stock of the series;

Table of Contents

- the date from which dividends on shares of preferred stock of the series shall cumulate, if applicable;
- our right, if any, to defer payment of dividends and the maximum length of any such deferral period;
- the procedures for any auction and remarketing, if any, for shares of preferred stock of the series;
- the provision for a sinking fund, if any, for shares of preferred stock of the series;
- the provision for redemption or repurchase, if applicable, of shares of preferred stock of the series;
- any listing of the series of shares of preferred stock on any securities exchange;
- the terms and conditions, if applicable, upon which shares of preferred stock of the series will be convertible into shares of preferred stock of another series or common stock, including the conversion price, or manner of calculating the conversion price;
- whether the preferred stock will be exchangeable into debt securities, and, if applicable, the exchange period, the exchange price, or how it will be calculated, and under what circumstances it may be adjusted;
- voting rights, if any, of the preferred stock;
- restrictions on transfer, sale or other assignment, if any;
- whether interests in shares of preferred stock of the series will be represented by global securities;
- any other specific terms, preferences, rights, limitations or restrictions of the series of shares of preferred stock;
- a discussion of any material United States federal income tax consequences of owning or disposing of the shares of preferred stock of the series;
- the relative ranking and preferences of shares of preferred stock of the series as to dividend rights and rights upon liquidation, dissolution or winding up of our affairs; and
- any limitations on issuance of any series of shares of preferred stock ranking senior to or on a parity with the series of shares of preferred stock as to dividend rights and rights upon liquidation, dissolution or winding up of our affairs.

When we issue shares of preferred stock under this prospectus, the shares will be fully paid and nonassessable and will not have, or be subject to, any preemptive or similar rights.

Composition of Board of Directors; Election and Removal of Directors

In accordance with our amended and restated certificate of incorporation and our amended and restated bylaws, the number of directors comprising our Board of Directors is determined from time to time by our Board of Directors, and only a majority of the Board of Directors may fix the number of directors. We currently avail ourselves of a transition period because we previously qualified for the “controlled company” exception under applicable national securities exchange corporate governance rules, which exempts us from certain requirements, including the requirements that we have a majority of independent directors on our Board of Directors and that we have compensation and nominating and corporate governance committees composed entirely of independent directors. The Board of Directors has taken, and will continue to take, all action necessary to comply with the applicable stock exchange rules, including appointing a majority of independent directors to the Board of Directors, and compensation and nominating and governance committees composed entirely of independent directors, by April 24, 2014, which is one year after the date we no longer qualified as a “controlled company.”

We currently have nine directors. Our bylaws provide that our Board of Directors is divided into three classes of directors, with the classes to be as nearly equal in number as possible. As a result, approximately one-third of our Board of Directors is elected at the annual meeting of stockholders, with such elections decided by plurality vote, each year, except as provided in the amended and restated stockholders agreement we entered into

[Table of Contents](#)

with Apollo Investment Fund VI, L.P., Apollo Investment Fund V, L.P. and their parallel investment funds (collectively, the “Apollo Funds”) and certain other stockholders in connection with our initial public offering. The classification of directors has the effect of making it more difficult for stockholders to change the composition of our Board. Each director holds office until his successor is duly elected and qualified or until his earlier death, resignation or removal. Any vacancies on our Board of Directors may be filled only by the affirmative vote of a majority of the remaining directors, although less than a quorum, except as provided in the amended and restated stockholders agreement, as described below. Our amended and restated certificate of incorporation provides that stockholders do not have the right to cumulative votes in the election of directors. At any meeting of our Board of Directors, except as otherwise required by law, a majority of the total number of directors that the company would have if there were no vacancies constitutes a quorum for all purposes.

The amended and restated stockholders agreement we entered into with the Apollo Funds and certain stockholders in connection with our initial public offering provides that, except as otherwise required by applicable law, if the Apollo Funds hold (a) at least 50% of our outstanding common stock, they will have the right to designate no fewer than that number of directors that would constitute a majority of our Board of Directors, (b) at least 30% but less than 50% of our outstanding common stock, they will have the right to designate up to five director nominees, (c) at least 20% but less than 30% of our outstanding common stock, they will have the right to designate up to four director nominees, and (d) at least 10% but less than 20% of our outstanding common stock, they will have the right to designate up to three director nominees. The agreement provides that if the size of the Board of Directors is increased or decreased at any time, the Apollo Funds’ nomination rights will be proportionately increased or decreased, respectively, rounded up to the nearest whole number. The amended and restated stockholders agreement provides that, except as otherwise required by applicable law, the company must take all action within its power to cause all persons nominated by the Apollo Funds pursuant to the provisions described above to be included in the slate of nominees recommended by the Board of Directors to our stockholders for election as directors at each annual meeting of our stockholders and must use all reasonable efforts to cause the election of each such nominee, including soliciting proxies in favor of the election of such nominees. In addition, except as otherwise required by applicable law, the Apollo Funds have the right to designate a replacement to fill a vacancy on our Board of Directors that was designated by the Apollo Funds and we are required to take all action within our power to cause such vacancy to be filled by the replacement designated by the Apollo Funds (including by promptly appointing such designee to the Board of Directors). If the Apollo Funds no longer own at least 10% of our outstanding common stock, they will have no right to designate director nominees under the amended and restated stockholders agreement. In addition, the amended and restated stockholders agreement provides that until such time as the Apollo Funds no longer beneficially own at least 25% of the total number of shares of our common stock outstanding at any time, the approval of a majority of the members of our Board of Directors, which must include the approval of a majority of the directors nominated by the Apollo Funds voting on the matter, is required for amendments to our certificate of incorporation and bylaws, certain business combinations, the incurrence of certain indebtedness, certain capital expenditures, the declaration of dividends or other distributions other than intra-company dividends or distributions, changes in the size of the Board of Directors and to approve certain other matters. See “Corporate Governance—Transactions with Related Persons,” incorporated by reference into this prospectus from our Definitive Proxy Statement for the 2014 Annual Meeting of Stockholders, filed with the SEC on January 27, 2014.

Special Meetings of Stockholders

Our amended and restated bylaws provide that special meetings of the stockholders may be called only by the Board of Directors or chairman, and only proposals included in the company’s notice or otherwise brought before the meeting by or at the direction of the Board may be considered at such special meetings.

Section 203 of the DGCL

In our amended and restated certificate of incorporation, we have elected not to be subject to Section 203 of the General Corporation Law of the State of Delaware (the “DGCL”). In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a three-year period following the time that this stockholder becomes an interested stockholder, unless the business

[Table of Contents](#)

combination is approved in the manner prescribed therein. A “business combination” includes a merger, asset sale or other transaction resulting in a financial benefit to the interested stockholder. An “interested stockholder” is a person who, together with affiliates and associates, owns (or, in some cases, within three years prior, did own) 15% or more of the corporation’s voting stock.

Certain Corporate Anti-Takeover Provisions

Certain provisions in our amended and restated certificate of incorporation and amended and restated bylaws summarized below may be deemed to have an anti-takeover effect and may delay, deter or prevent a tender offer or takeover attempt that a stockholder might consider to be in its best interests, including attempts that might result in a premium being paid over the market price for the shares held by stockholders.

Preferred Stock

Our amended and restated certificate of incorporation contains provisions that permit our Board of Directors to issue, without any further vote or action by the stockholders, shares of preferred stock in one or more series and, with respect to each such series, to fix the number of shares constituting the series and the designation of the series, the voting rights (if any) of the shares of the series, and the powers, preferences and relative, participation, optional and other special rights, if any, and any qualifications, limitations or restrictions, of the shares of such series. See “—Preferred Stock.”

Classified Board; Number of Directors

Our amended and restated certificate of incorporation and amended and restated bylaws provide that our Board of Directors is divided into three classes of directors, with the classes to be as nearly equal in number as possible, and the number of directors on our Board of Directors may be fixed only by the majority of our Board of Directors, as described above in “—Composition of Board of Directors; Election and Removal of Directors.”

Removal of Directors; Vacancies

Our amended and restated certificate of incorporation provides that stockholders are able to remove directors only by the affirmative vote of the holders of a majority of the voting power entitled to vote for the election of directors and only for cause. Vacancies on our Board of Directors may be filled only by a majority of our Board of Directors then in office, although less than a quorum, except as provided in the amended and restated stockholders agreement, which provides that except as otherwise required by applicable law, the Apollo Funds have the right to designate a replacement to fill a vacancy on our Board of Directors that was designated by the Apollo Funds. See “Corporate Governance—Transactions with Related Persons,” incorporated by reference into this prospectus from our Definitive Proxy Statement for the 2014 Annual Meeting of Stockholders, filed with the SEC on January 27, 2014.

No Cumulative Voting

Our amended and restated certificate of incorporation provides that stockholders do not have the right to cumulative votes in the election of directors. Cumulative voting rights would be available to the holders of our common stock if our amended and restated certificate of incorporation did not negate cumulative voting.

No Stockholder Action by Written Consent; Calling of Special Meetings of Stockholders

Our amended and restated certificate of incorporation does not permit stockholder action without a meeting by consent if less than 50.1% of our outstanding common stock is owned by the Apollo Funds and their affiliates. Our amended and restated bylaws also provide that special meetings of the stockholders may be called only by the Board or chairman, and only proposals included in the company’s notice or otherwise brought before the meeting by or at the direction of the Board may be considered at such special meetings.

Advance Notice Requirements for Stockholders Proposals and Director Nominations

Our amended and restated bylaws provides that stockholders seeking to bring business before an annual meeting of stockholders, or to nominate candidates for election as directors at an annual meeting of stockholders,

[Table of Contents](#)

must provide timely notice thereof in writing. To be timely, a stockholder's notice generally has to be delivered to and received at our principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary of the preceding year's annual meeting; provided, that in the event that the date of such meeting is advanced more than 30 days prior to, or delayed by more than 60 days after, the anniversary of the preceding year's annual meeting of our stockholders, a stockholder's notice to be timely has to be so delivered not earlier than the close of business on the 120th day prior to such meeting and not later than the close of business on the later of the 90th day prior to such meeting or, if the first public announcement of the date of such meeting is less than 100 days prior to the date of such meeting, the 10th day following the day on which public announcement of the date of such meeting is first made. Our amended and restated bylaws also specify certain requirements as to the form and content of a stockholder's notice. These provisions may preclude stockholders from bringing matters before an annual meeting of stockholders or from making nominations for directors at an annual meeting of stockholders.

Delaware Takeover Statute

In our amended and restated certificate of incorporation, we have elected not to be subject to Section 203 of the DGCL, which would have imposed additional requirements regarding certain mergers and other business combinations.

All the foregoing proposed provisions of our amended and restated certificate of incorporation and amended and restated bylaws could discourage potential acquisition proposals and could delay or prevent a change in control. In addition, under the amended and restated stockholders agreement, until such time as the Apollo Funds no longer beneficially own at least 25% of the total number of shares of our common stock outstanding at any time, the approval of a majority of the members of our Board of Directors, which must include the approval of a majority of the directors nominated by the Apollo Funds voting on the matter, is required for certain business combinations and to approve certain other matters. See "Corporate Governance—Transactions with Related Persons," incorporated by reference into this prospectus from our Definitive Proxy Statement for the 2014 Annual Meeting of Stockholders, filed with the SEC on January 27, 2014.

These provisions are intended to enhance the likelihood of continuity and stability in the composition of the Board of Directors and in the policies formulated by the Board of Directors and to discourage certain types of transactions that may involve an actual or threatened change of control. These same provisions may delay, deter or prevent a tender offer or takeover attempt that a stockholder might consider to be in its best interest. In addition, such provisions could have the effect of discouraging others from making tender offers for our shares and, as a consequence, they also may inhibit fluctuations in the market price of our common stock that could result from actual or rumored takeover attempts. Such provisions also may have the effect of preventing changes in our management.

Corporate Opportunity

Our amended and restated certificate of incorporation provides that no officer or director of us who is also an officer, director, employee, managing director or other affiliate of the Apollo Funds or Graham Partners II, L.P. and its affiliates ("Graham") will be liable to us or our stockholders for breach of any fiduciary duty by reason of the fact that any such individual directs a corporate opportunity to the Apollo Funds or Graham, as applicable, instead of us, or does not communicate information regarding a corporate opportunity to us that the officer, director, employee, managing director or other affiliate has directed to the Apollo Funds or Graham, as applicable.

Amendment of Our Certificate of Incorporation

Under Delaware law, our amended and restated certificate of incorporation provides that it may be amended only with the affirmative vote of a majority of the outstanding stock entitled to vote in the election of directors;

[Table of Contents](#)

provided that the Apollo Funds' or Graham's prior written consent is required for any amendment, modification or repeal of the provisions discussed above regarding the ability of Apollo Funds- or Graham-related directors, as applicable, to direct or communicate corporate opportunities to the Apollo Funds or Graham, as applicable.

Amendment of Our Bylaws

Our amended and restated bylaws provide that except as provided in the amended and restated stockholders agreement, they may be amended by the vote of a majority of the shares present in person or represented by proxy at a meeting of the stockholders and entitled to vote or by the vote of a majority of the Board.

Limitation of Liability and Indemnification

Our amended and restated certificate of incorporation limits the liability of our directors to the maximum extent permitted by Delaware law. Delaware law provides that directors will not be personally liable for monetary damages for breach of their fiduciary duties as directors, except with respect to liability:

- for any breach of the director's duty of loyalty to us or our stockholders;
- for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;
- under Section 174 of the DGCL (governing distributions to stockholders); or
- for any transaction from which the director derived any improper personal benefit.

However, if the DGCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of our directors will be eliminated or limited to the fullest extent permitted by the DGCL, as so amended. The modification or repeal of this provision of our amended and restated certificate of incorporation will not adversely affect any right or protection of a director existing at the time of such modification or repeal.

Our amended and restated certificate of incorporation provides that we will, to the fullest extent from time to time permitted by law, indemnify our directors and officers against all liabilities and expenses in any suit or proceeding, arising out of their status as an officer or director or their activities in these capacities. We will also indemnify any person who, at our request, is or was serving as a director, officer or employee of another corporation, partnership, joint venture, trust or other enterprise. We may, by action of our Board of Directors, provide indemnification to our employees and agents within the same scope and effect as the foregoing indemnification of directors and officers.

The right to be indemnified will include the right of an officer or a director to be paid expenses in advance of the final disposition of any proceeding, provided that, if required by law, we receive an undertaking to repay such amount if it will be determined that he or she is not entitled to be indemnified.

Our Board of Directors may take such action as it deems necessary to carry out these indemnification provisions, including adopting procedures for determining and enforcing indemnification rights and purchasing insurance policies. Our Board of Directors may also adopt bylaws, resolutions or contracts implementing indemnification arrangements as may be permitted by law. Neither the amendment nor the repeal of these indemnification provisions, nor the adoption of any provision of our amended and restated certificate of incorporation inconsistent with these indemnification provisions, will eliminate or reduce any rights to indemnification relating to their status or any activities prior to such amendment, repeal or adoption.

We believe these provisions assist in attracting and retaining qualified individuals to serve as directors.

We or any selling stockholder may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase the securities at the public offering price set forth in the applicable prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The delayed delivery contracts will be subject only to those conditions set forth in the applicable prospectus supplement, and the applicable prospectus supplement will set forth any commissions we or any selling stockholders pay for solicitation of these delayed delivery contracts.

Agents, underwriters and other third parties described above may be entitled to indemnification by us and/or by any selling stockholder against certain civil liabilities under the Securities Act, or to contribution with respect to payments which the agents or underwriters may be required to make in respect thereof. In compliance with the guidelines of the Financial Industry Regulatory Authority ("FINRA"), the aggregate maximum discount, commission or agency fees or other items constituting underwriting compensation to be received by any FINRA member or independent broker-dealer will not exceed 8% of any offering pursuant to this prospectus and any applicable prospectus supplement or pricing supplement, as the case may be; however, it is anticipated that the maximum commission or discount to be received in any particular offering of securities will be significantly less than this amount.

If 5% or more of the net proceeds of any offering of securities made under this prospectus will be received by a FINRA member participating in the offering or affiliates or associated persons of such FINRA member, the offering will be conducted in accordance with FINRA Rule 5121 (or any successor rule).
